

Mono Universal Parts

Mono is a recognised name in the design, manufacture and supply of progressing cavity pumps, parts, grinders, screens and packaged solutions, worldwide. We have 8 international sites and a global distribution network, as well as over 75 years' experience in providing a range of products for the multiple application requirements of today's industries.

Mono Universal Parts

Mono has a reputation for quality in both equipment and parts. Over recent years it has been our mission to use our manufacturing and engineering expertise to expand our product offering to include a range of high quality Mono Universal Parts. These parts are engineered and manufactured by Mono and are usually suitable for many other brands of progressing cavity (PC) pumps.

All Mono Universal Parts attract the same warranties and guarantees as Mono original parts for Mono equipment.*

Availability

Comprehensive stocks are held at Mono's head office and at our UK and international distributor locations. This allows us to offer a fast turnaround to help reduce equipment downtime and prevent the need for you to purchase inventory.

Same day delivery is available on request**, helping to minimise disruption and production stoppages. This service combined with the option to purchase online, simplifies the logistics of pump maintenance.

You can also check stock levels and lead times for Mono Universal Parts by registering at www.mono-orders.com.

* Terms and conditions and warranty exclusions apply, please contact Mono for details.

** Subject to availability, location and time of order. Please contact Mono for details.

Price

With an increasing focus on operational and maintenance cost control, we understand that the price and availability of spare parts is high on the agenda when evaluating plant savings and efficiencies.

To make a comparison between Mono Universal Parts and original manufacturer spares, just ask for a no obligation quotation.

Quality Assurance

We are able to closely control the quality and integrity of our original Mono parts and our range of Mono Universal Parts, as we manufacture the key components of our PC pumps in-house. Mono was the first progressing cavity pump manufacturer to be certified to ISO9001 and the first to achieve the Carbon Trust Standard for its UK operations. We are also certified to ISO14001, demonstrating our commitment to improving our environmental performance.

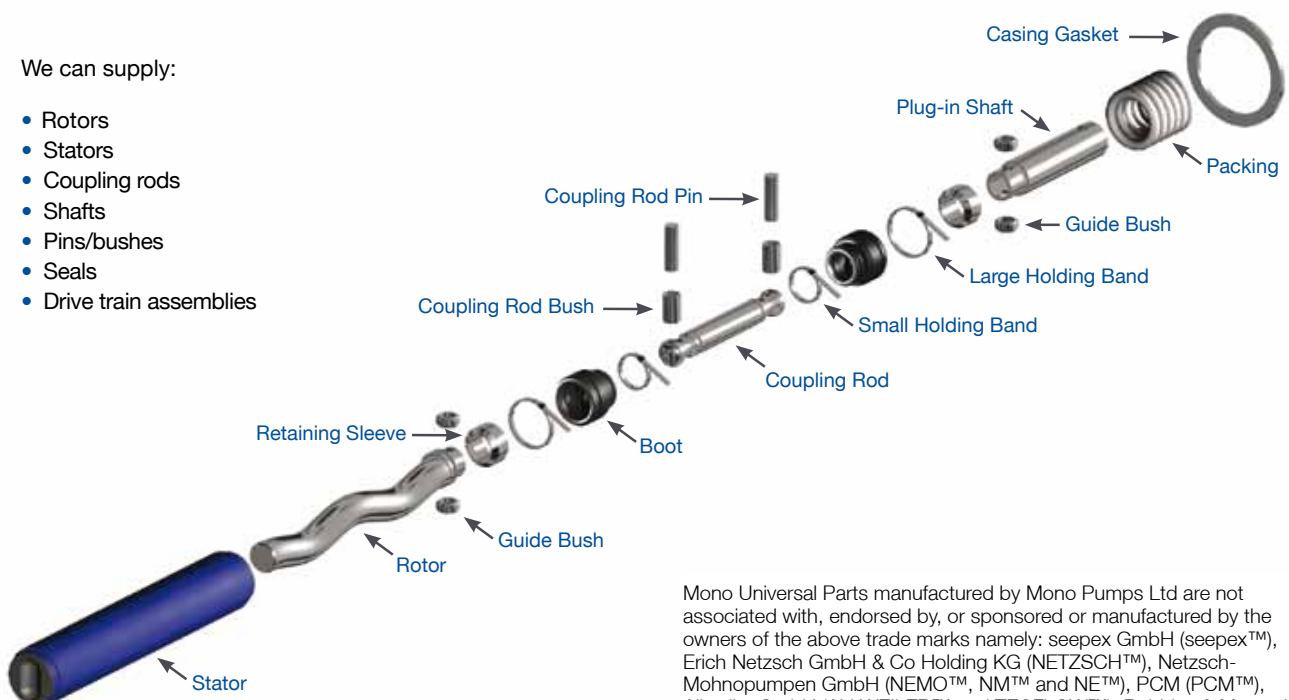

Product Portfolio

We provide Mono Universal Parts to be used with the following ranges of other brands of progressing cavity pumps. For others not listed, please contact Mono.

	seepex™	NETZSCH™	PCM™	ALLWEILER™	ROBBINS & MYERS™	Bornemann™	ORBIT™
PUMP RANGES	BN NS BT MD	NEMO™ NM™ NE™ NU	I and ID IVA and IDVA MR/MV-I and ID	TECFLOW™ AE SN SH SZ	2000 Series 1000 Series L Frame	E Range	C Range A and B Range D and E Range
GEOMETRY	Std (standard) -L (long pitch) -T (2/3)	S (standard) L (long pitch) P (2/3 long)		Std (standard) TECFLOW™ (2/3)			

We can supply:

- Rotors
- Stators
- Coupling rods
- Shafts
- Pins/bushes
- Seals
- Drive train assemblies

Mono Universal Parts manufactured by Mono Pumps Ltd are not associated with, endorsed by, or sponsored or manufactured by the owners of the above trade marks namely: seepex GmbH (seepex™), Erich Netzsch GmbH & Co Holding KG (NETZSCH™), Netzsch-Mohnopumpen GmbH (NEMO™, NM™ and NE™), PCM (PCM™), Allweiler GmbH (ALLWEILER™ and TECFLOW™), Robbins & Myers, Inc (ROBBINS & MYERS™), Joh. Heiner Bornemann GmbH (Bornemann™), Denorco (Pty) Limited (ORBIT™), or any other brand which we supply parts for.

**Rotating parts can
be supplied fully assembled**

Rotating Assembly

On selected ranges, we can offer fully assembled rotating units. This saves assembly and installation time on site and can provide cost efficiencies as the assembly is sold as a complete unit versus purchase of individual components.

The following items are all included in the rotating unit:

- Rotor
- Stator
- Joint kit
- Coupling rod
- Plug in shaft
- Mechanical seal or gland packing

Please contact the Mono Universal Parts team to find out more.

Service and Support

Our team of experienced application and sales engineers have a wealth of industry and product knowledge to assist you in correct product selection, problem solving and aftermarket support.

We have a dedicated aftermarket team to help you select the correct parts when carrying out routine maintenance and in the event of an unexpected breakdown, parts may be despatched the same day*. Recommended parts lists are also available to assist with budgets and stock control.

Our promise is clear ... one company, unlimited solutions.

The Facts

Mono Universal Parts

1. Mono Universal Parts attract a twelve month warranty against defective materials and manufacture, from date of installation or 18 months from delivery date.*
2. All Mono Universal Parts are manufactured to ISO9001:2000.
3. Rotors are plated to a minimum thickness of 0.25mm hard chrome plating as standard.

Stators are produced from fine tolerance tubing and custom developed elastomers for durable quality. Mono has developed its stator manufacturing process and elastomer compounds over 50 years of R&D, providing excellent wear characteristics.
5. Mono holds high levels of inventory, offering prompt turnaround.
6. Mono operates a manned 24/7 emergency spares call out service (exclusions apply, please contact Mono for details).

* Full terms and conditions of warranty apply, please see Mono standard terms and conditions of sale, available on request.
